

Market today

Sideways, follow CPI report

The SET is expected to trade volatily as the market prices in a higher probability of a Fed rate hike at its mid-September meeting, driving US Treasury yields higher. However, investors remain focused on the release of US August PPI and CPI data late this week, which could shift market expectations once again. Domestically, key factors to track today include Thailand's August inflation report and the first day of the parliamentary debate on the FY2027 Budget Bill in its second and third readings. Technically, the index is rebounding; clearing the 1,600 level would signal an improved technical outlook.

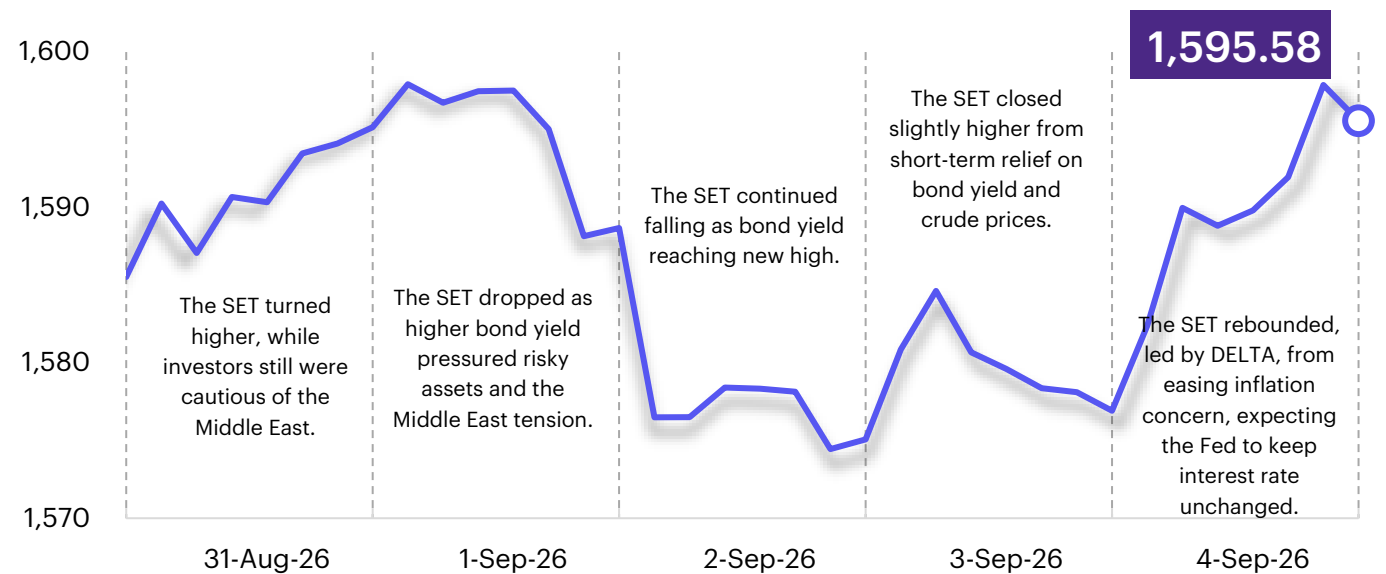

Today's highlights

- President Trump posted on Truth Social congratulating the stronger-than-expected August jobs report, while threatening to terminate trade with countries holding trade surpluses with the US if the Fed fails to cut interest rates. This issue heightens global trade policy uncertainty and pressures sentiment for risk assets, especially exporters with major US customer bases (ITC, AAI, TU).
- Brent crude oil prices rose to touch US\$97/bbl as US-Iran conflicts escalated following attacks on oil tankers in the Strait of Hormuz. Meanwhile, US retail diesel prices hit a record high, sparking concerns over tight global energy supply. Positive for energy plays (PTTEP, TOP, BCP), but negative for anti-oil stocks (AAV, BA, GPSC, BGRIM).
- China's Ministry of Finance plans to inject US\$54bn in liquidity into state banks and insurance companies to strengthen financial system stability and boost economic confidence. Positive for petrochemical plays linked to Chinese demand (PTTGC, IVL, SCC).
- Freight rate indices surged sharply, with SCFI rising to two-year high and BDI rising to five-year high. Growth is driven by accelerating global demand for commodities, iron ore, and agricultural products, combined with geopolitical issues causing port congestion and longer shipping routes. Positive for shipping operators (RCL, PSL, TTA).
- Global sugar prices surged 21.5% in August to their highest level in over 15 years since October 2010 after heatwaves hit European output, while Brazil reduced sugarcane crushing for sugar to produce ethanol amid high oil prices. Coupled with India opening imports, average selling prices are supported. Positive for sugar producers (KSL, BRR, KTIS, KBS).

Strategy today

In the near term, the SET is expected to swing volatily following pressure from rising energy prices and bond yields, triggering market concerns the Fed may consider rate hikes to combat inflation, along with multiple large-cap stocks going ex-dividend in Thailand. However, key factors to monitor will impact the investment atmosphere, particularly US inflation (Sep 11) which will signal rate direction before the FOMC meeting (Sep 15-16), FY2027 budget bill consideration (Sep 7-9) which will help build investment confidence, and the PDP2026 draft hearing opening (Sep 8) which will benefit the clean energy sector. The investment strategy therefore recommends "Selective Buy".

Support - Resistance: 1585/1575 – 1605/1615

Trading today

The SET is expected to swing volatily, pressured by concerns the Fed may consider rate hikes and multiple large-cap stocks going ex-dividend in Thailand, while key factors to monitor include US inflation reports, FY2027 budget bill consideration, and PDP2026 draft hearing opening. The investment strategy therefore recommends "Selective Buy" across 4 trading themes with specific positive factors as follows:

- Policy and Domestic Play** — Benefiting from accelerated government economic policy implementation: Clean energy and industrial estate stocks (GULF, GPSC, BGRIM, GUNKUL, WHAUP, AMATA, WHA) expected to benefit from PDP2026 progress and Solar Rooftop installation subsidies, contractors and construction materials (STECON, CK, **SCC**, **SCCC**) benefiting from accelerated government spending before fiscal year-end and FY2027 budget expectations, and retail and tourism stocks (CPALL, CRC, CPN, **ERW**, **CENTEL**, AOT) benefiting from Thai Tourism Plus measures.
- Global Macro & Bond Yield Play** — Benefiting from renewed geopolitical tensions pushing energy prices and shipping rates higher, supporting energy (PTTEP, **BCP**, TOP) and shipping stocks (**PSL**, TTA), while inflation concerns supporting high bond yields positively impacting bank returns (KTB, **BBL**, KBANK) and life insurance stocks (BLA, TLI).
- Laggard Play** — Stocks with slower price appreciation than the SET but expected strong 2H26 earnings growth both YoY and HoH, making them targets for fund rotation and speculation: AP, **PR9**, SAWAD, HMPRO, BDMS, TU, BCH, MTC, TIDLOR.
- High Dividend Play** — To create consistent cash flow into portfolios, focusing on interim dividend payments with expected Div. Interim Yield >2%: HMPRO, KKP, HTC, TOP, **PTT**.

Daily Top Picks

HANA: Short-term catalyst from recovery momentum in global tech stock prices. Production of high-density PCBA and solid-state cooling is expected to reach full capacity by late 3Q26 and 4Q26, respectively. This is anticipated to drive significant core profit growth in 2H26, extending into 2027F. Short-term TP is Bt47.50.

PTTGC: Supported by lingering Middle East tensions that continue to strain supply chains, holding product spreads at elevated levels across olefins, aromatics, and refining businesses. In 2026F, net profit is projected to turn around to Bt25.2bn from a net loss of Bt14.6bn in the previous year. Short-term TP is Bt46.50.

Disclaimer

The information in this report has been obtained from sources believed to be reliable. However, its accuracy or completeness is not guaranteed. Any opinions expressed herein reflect our judgment at this date and are subject to change without notice. This report is for information only. It is not to be construed as an offer, or solicitation of an offer to sell or buy any securities. We accept no liability for any loss arising from the use of this document. We or our associates may have an interest in the companies mentioned therein.

InnovestX Securities Company Limited ("INVX") is wholly owned by SCB X Public Company Limited ("SCBX") and The Siam Commercial Bank Public Company Limited ("SCB") is majority-owned by SCBX. Any information related to SCB is for sector comparison purpose.

This document is prepared by InnovestX Securities Company Limited ("INVX") which is wholly owned by SCB X Public Company Limited ("SCBX"). The Siam Commercial Bank Public Company Limited, which is majority-owned by SCBX, acts as financial advisor of the LH Hotel Leasehold Real Estate Investment Trust. Any opinions, news, research, analyses, prices, statements, forecasts, projections and/or other information contained in this document (the "Information") is provided as general information purposes only and shall not be construed as individualized recommendation of an offer to buy or sell or the solicitation of an offer to buy or sell any securities. INVX and/or its directors, officers and employees shall not be liable for any direct, indirect, incidental, special or consequential loss or damage, resulting from the use of or reliance on the Information, including without limitation to, damages for loss of profits. The investors shall use the Information in association with other information and opinion, including their own judgment in making investment decision. The Information is obtained from sources believed to be reliable, and INVX cannot guarantee the accuracy, completeness and/or correctness of the Information.

INVX reserves the right to modify the Information from time to time without notice and in its sole discretion. This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of INVX.

Futures and Options trading carry a high level of risk with the potential for substantial losses, and are not suitable for all persons. Before deciding to trade Futures and Options, you should carefully consider your financial position, investment objectives, level of experience, and risk appetite if Futures and Options trading are appropriate. The possibility exists that you could sustain a loss of some or all of your initial investment. You should be aware of all the risks associated with Futures and Options trading, and you are advised to rely on your own judgment while making investment decision and/or should seek advice from professional investment advisor if you have any doubts.

This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of INVX.
