

Market today

Upside capped amid fund outflow

The SET is expected to move sideways-up, supported by easing oil prices following a recovery in global crude supply. While lower oil prices may exert near-term pressure on upstream energy stocks, they should prove positive for refiners and utilities. Meanwhile, electronics are expected to gain support from the rally in global tech stocks. However, upside momentum could face volatility from domestic factors, including the ongoing flood and continuous foreign net selling of over Bt37bn across ten consecutive trading sessions. Domestically today, monitor the Cabinet meeting, which is expected to consider additional relief measures. Technically, the index is seeing a weak rebound, keeping the recovery within a limited bound.

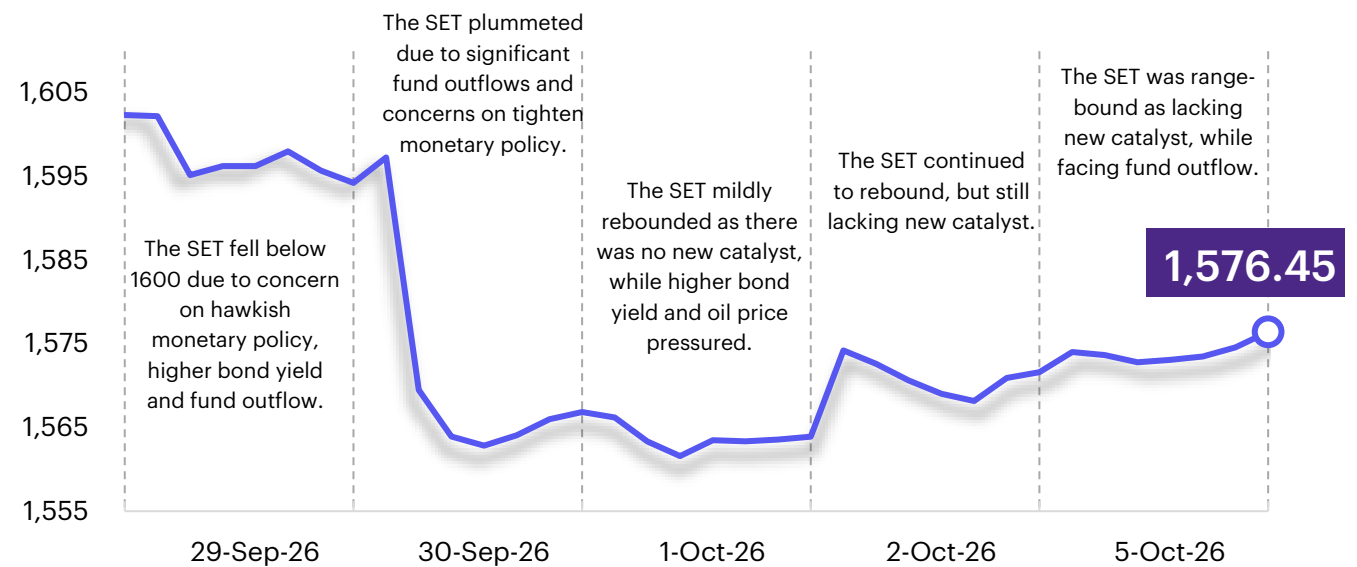

Today's highlights

- Kpler reported Persian Gulf crude oil exports accelerated to 18.3mn bbl/day, exceeding pre-war levels as Saudi Arabia expanded multi-route shipments, while LNG exports hit a high since Feb. Meanwhile, Saudi Aramco cut its OSP to Asia to a 6-year low. Short-term negative for upstream energy (PTTEP), but positive for refiners (TOP, SPRC, BCP) and SPP power plants (GPSC, BGRIM).
- Foreign tourist arrivals to Thailand reached 522,532 last week (+8.2% WoW), supported by Golden Week and regional holidays. The Ministry of Transport signed an MOU with 6 partners, targeting early 2027 to pilot free short-tour packages for 6–8 hour transit passengers at 4 main airports (Suvarnabhumi, Don Mueang, Phuket, Krabi). Positive for tourism (ERW, CENTEL, AOT).
- ONWR warned of increased rainfall and flood risks across Thailand on Oct 5–7, 2026, as Chao Phraya Dam maintains discharge at 2,500 cu.m./sec. Once conditions ease, it is positive for building material retailers (HMPRO, GLOBAL).
- The Finance Minister stated Thailand ranks among top 5 relocation targets due to political neutrality, aiming to attract AI, chip, and PCB investments. SET is also pushing the "BOI to IPO" initiative to revitalize the stock market by 2027. Long-term positive for industrial estates (WHA, AMATA).
- The private power purchase resolution committee revealed that private firms agreed to reduce/cancel only 2–3% of over 400–500 contracts after a proposed tariff cut to Bt2.15/unit. Neutral for large power producers (GULF, BGRIM, GPSC).

Strategy today

In the near term, the SET is expected to remain volatile due to lack of new supporting factors amid investment atmosphere pressured by multiple headwinds including the Fed's hawkish stance supporting bond yields at multi-year highs causing continued fund outflows, combined with elevated energy prices from prolonged geopolitical issues posing inflation risks. Domestically, overhang from flooding concerns remains, with preliminary impact on the economy assessed as limited, but caution warranted on sudden flooding risks from expected heavy rain Oct 5–7 and Oct 11–13, which could add downside risk to the economy and create negative market sentiment. The investment strategy therefore recommends "Selective Buy".

Support - Resistance: 1565/1560 – 1585/1590

Trading today

The SET is expected to remain volatile, lacking new supporting factors, pressured externally by the Fed's hawkish stance pushing bond yields higher causing fund outflows, and high energy prices from geopolitical issues increasing inflation risks. Domestically, overhang from monitoring new flooding waves which may add downside risk to the economy and dampen investment sentiment. The investment strategy therefore recommends "Selective Buy" emphasizing "Buy on Dip" through 3 trading themes with specific positive factors as follows:

1. Domestic Play — Based primarily on domestic consumption with stable revenue streams and high resilience to external factors. Includes retail stocks (CPALL, **CPN**, **CRC**), healthcare stocks (BCH, PR9), and telecom stocks (**TRUE**).
2. Flood Defensive & Recovery Plays — Benefit from flooding starting with emergency essential goods buying (CPALL, BJC, **CRC**) continuing to post-flood housing repair demand (**HMPRO**, GLOBAL) and construction materials (DCC). Recommend avoiding or delaying investment in property/casualty insurance stocks that may face pressure from higher loss ratios.
3. Tourism & Mega-Event Play — Expected to benefit from entering 4Q26 high tourism season supported by China's Golden Week (Oct 1-7) and global events like World Bank-IMF meetings (Oct 12-18). Includes tourism stocks (ERW, CENTEL, AOT) and retail stocks (CPALL, **CPN**, **CRC**).

Daily Top Picks

CPN: Short-term catalyst from expectations that weather conditions may be less severe than the previous week. 3Q26F normal profit is expected to grow YoY and QoQ, supported by a continuous increase in shopping mall foot traffic and tenant sales growth, along with upside potential from title transfers at Dusit Residences. Short-term TP is Bt63.00.

KKP: Catalyst from strong, jump-like growth in fee income via new S-curve initiatives from its subsidiary "Dime" and its commercial banking business. 3Q26F net profit is expected to grow 23% YoY—the strongest growth in the banking sector—reaching Bt2.06bn, driven by loan growth and non-NII. It offers a full-year dividend of Bt7.50/share or a 6.7% yield. Short-term TP is Bt116.00.

INVX and/or its directors, officers and employees shall not be liable for any direct, indirect, incidental, special or consequential loss or damage, resulting from the use of or reliance on the Information, including without limitation to, damages for loss of profits. The investors shall use the Information in association with other information and opinion, including their own judgment in making investment decision. The Information is obtained from sources believed to be reliable, and INVX cannot guarantee the accuracy, completeness and/or correctness of the Information.

INVX reserves the right to modify the Information from time to time without notice and in its sole discretion. This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of INVX.

Futures and Options trading carry a high level of risk with the potential for substantial losses, and are not suitable for all persons. Before deciding to trade Futures and Options, you should carefully consider your financial position, investment objectives, level of experience, and risk appetite if Futures and Options trading are appropriate. The possibility exists that you could sustain a loss of some or all of your initial investment. You should be aware of all the risks associated with Futures and Options trading, and you are advised to rely on your own judgment while making investment decision and/or should seek advice from professional investment advisor if you have any doubts.

This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of INVX.
