

Market today

Rising bond yield and oil prices

The SET is expected to trade volatily as higher US Treasury yields and rising crude oil prices pressure risk assets, while new domestic catalysts remain absent. The market is anticipated to selectively focus on stocks with individual positive drivers, such as upstream energy and life insurance plays. Regarding capital flows, foreign investors turned net buyers yesterday following six consecutive sessions of net selling, though close monitoring remains necessary. Key events to track today include the release of US August private payrolls data. Technically, the index is drifting downward, lacking supporting momentum, with overall chart patterns showing no clear reversal signals.

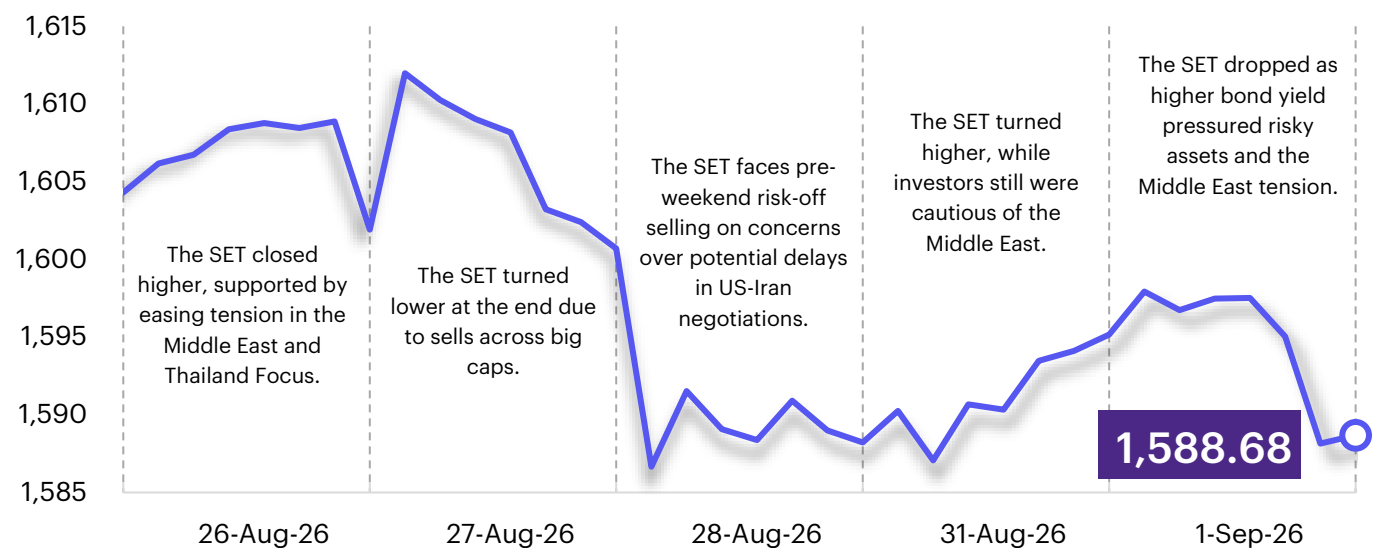

Today's highlights

- Brent crude oil prices rose 4.5% DoD to US\$94.52/bbl on concerns that heightened Middle East tensions could disrupt oil supply after the US began strikes on IRGC targets while Russia launched airstrikes in Ukraine. This pushed global bond yields higher. Short-term negative for risk assets on risk-off sentiment, particularly anti-oil stocks, but positive for energy (PTTEP, BCP, TOP, SPRC) and life insurance (BLA, TLI).
- The OFFO increased retail diesel prices by Bt0.75/litre and gasoline by Bt0.60/litre (effective Sep 2), tracking rising global oil prices driven by Middle East conflicts. This is expected to press living costs and household debt burden, near-term negative for retail (CPALL, CPN, CRC) and consumer finance (MTC, SAWAD, TIDLOR).
- European gas prices surged above €70/MWh, their highest since Jan 2023, on fears Europe cannot secure sufficient gas-LNG reserves ahead of winter. Diesel prices also rose to a 4-month high, reflecting multi-region war concerns. Positive for BCP, which operates refineries and holds OKEA in Norway.
- The mobile Cabinet approved Phase 2 of the southern double-track railway, comprising 3 projects totaling ~Bt107bn: Chumphon-Surat Thani, Surat Thani-Hat Yai Junction, and Hat Yai Junction-Padang Besar. Construction is expected to start in 3Q27 to boost logistics and southern economy. Positive sentiment for contractors and construction materials (STECON, CK, SCC).
- Foreign tourist arrivals reached 491,456 last week, down 12% WoW as Chinese and Taiwanese arrivals slowed past the summer peak amid negative geopolitical sentiment. Short-term negative for tourism (AOT, MINT, ERW, CENTEL).

Strategy today

In the near term, we expect the SET to trade sideways. While the market draws domestic support from expectations around continued government economic stimulus measures — including solar rooftop installation subsidies, tourism stimulus scheme, progress on the FY2027 Budget Bill, and clarity on the PDP2026 plan — headwinds persist from slowing fund flows, the prolonged Middle East situation, and hawkish signals from the Fed Chair at Jackson Hole signaling readiness to raise rates to contain inflation. The investment strategy is therefore "Selective Buy".

Support - Resistance: 1580/1575 – 1600/1605

Trading today

We view the SET as likely to trade sideways. While the market draws support from expectations around domestic economic stimulus measures under consideration, it continues to face headwinds from slowing fund flows, the prolonged Middle East situation, and hawkish signals from the Fed Chair signaling readiness to raise rates to contain inflation. Our investment strategy is therefore "Selective Buy" across 4 trading ideas with specific positives as follows:

1. Policy plays — Stocks positioned to benefit from progress on government economic stimulus measures: Thai Teaw Thai Plus (ERW, **CENTEL**, AWC, CPALL, CPN); clean energy support measures including solar rooftop initiatives and the PDP2026 outcome (GULF, GPSC, BGRIM, GUNKUL, WHAUP, AMATA, WHA); and accelerated government disbursement ahead of fiscal year-end and the FY2027 Budget Bill (STECON, CK, SCC, SCCC).
2. Consumption plays — Stocks set to benefit from a recovery in purchasing power and an increasingly resilient domestic economy: commerce (CPALL, **CRC**, CPN, GLOBAL), telecommunications (TRUE), financials (MTC, SAWAD, TIDLOR), and land transport (**BEM**).
3. Laggard plays — Stocks whose share prices have lagged the broader SET despite 2H26 earnings momentum expected to deliver solid YoY and HoH growth, making them likely targets for speculative rotation: AP, PR9, SAWAD, HMPRO, **BDMS**, TU, **BCH**, MTC, TIDLOR.
4. High dividend plays — To generate steady cash flow returns through interim dividend capture, with expected Div. Interim Yield >2%: TTB (XD Sep 7), **BCP (XD Sep 7)**, OR (XD Sep 7), HMPRO (XD Sep 8), **KKP (XD Sep 9)**.

Daily Top Picks

PTTEP: Short-term catalyst from rising crude oil prices following a new round of US strikes on Iran. Meanwhile, gas prices are expected to remain elevated throughout 3Q26. Long term, the company plans to continuously expand natural gas production capacity in the Gulf of Thailand and broaden overseas projects. 2026F core profit is expected to grow 27% YoY. Short-term TP is Bt153.50.

BCH: Supported by signs of revenue recovery in 2H26, with July 2026 revenue growing 7% YoY, accelerating from 1% YoY in 2Q26. Earnings are expected to show a clear recovery in 2027F driven by a rebound in patient volumes. Upside is expected in 4Q26 from an increase in Social Security service fee rates. Short-term TP is Bt11.30.

Today's reports

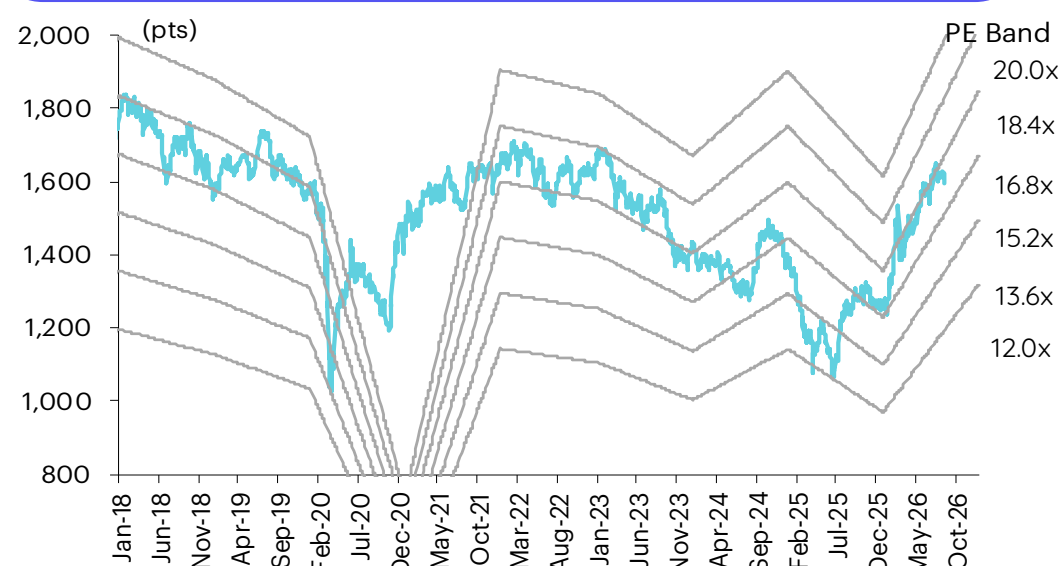

Petrochemical Weekly – Mixed polymer margins; weaker aromatics

Disclaimer

The information in this report has been obtained from sources believed to be reliable. However, its accuracy or completeness is not guaranteed. Any opinions expressed herein reflect our judgment at this date and are subject to change without notice. This report is for information only. It is not to be construed as an offer, or solicitation of an offer to sell or buy any securities. We accept no liability for any loss arising from the use of this document. We or our associates may have an interest in the companies mentioned therein.

InnovestX Securities Company Limited ("INVX") is wholly owned by SCB X Public Company Limited ("SCBX") and The Siam Commercial Bank Public Company Limited ("SCB") is majority-owned by SCBX. Any information related to SCB is for sector comparison purpose.

This document is prepared by InnovestX Securities Company Limited ("INVX") which is wholly owned by SCB X Public Company Limited ("SCBX"). The Siam Commercial Bank Public Company Limited, which is majority-owned by SCBX, acts as financial advisor of the LH Hotel Leasehold Real Estate Investment Trust. Any opinions, news, research, analyses, prices, statements, forecasts, projections and/or other information contained in this document (the "Information") is provided as general information purposes only and shall not be construed as individualized recommendation of an offer to buy or sell or the solicitation of an offer to buy or sell any securities. INVX and/or its directors, officers and employees shall not be liable for any direct, indirect, incidental, special or consequential loss or damage, resulting from the use of or reliance on the Information, including without limitation to, damages for loss of profits. The investors shall use the Information in association with other information and opinion, including their own judgment in making investment decision. The Information is obtained from sources believed to be reliable, and INVX cannot guarantee the accuracy, completeness and/or correctness of the Information.

INVX reserves the right to modify the Information from time to time without notice and in its sole discretion. This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of INVX.

Futures and Options trading carry a high level of risk with the potential for substantial losses, and are not suitable for all persons. Before deciding to trade Futures and Options, you should carefully consider your financial position, investment objectives, level of experience, and risk appetite if Futures and Options trading are appropriate. The possibility exists that you could sustain a loss of some or all of your initial investment. You should be aware of all the risks associated with Futures and Options trading, and you are advised to rely on your own judgment while making investment decision and/or should seek advice from professional investment advisor if you have any doubts.

This document is delivered to intended recipient(s) only and is not permitted to reproduce, retransmit, disseminate, sell, distribute, republish, circulate or commercially exploit the Information in any manner without the prior written consent of INVX.

Explanations

Companies participating in Thailand's Private Sector Collective Action Coalition Against Corruption programme (Thai CAC) under Thai Institute of Directors (as of May 2, 2025) are categorised into: companies that have declared their intention to join CAC, and companies certified by CAC.
