

InnovestX Private Fund

Private fund model ID Alpha (“ID Alpha”)

Data as of 31 July 2025

Fund objective

ID Alpha Fund seeks medium to long-term capital appreciation. The fund manager(s) actively manage the fund by investing primarily in mutual fund units, listed equities, and others marketable securities with exposure in Indonesia, which the team believes will generate superior sustainable return over a certain benchmark. Although the Fund is not constructed relative to any benchmark, the IDX Composite (IDX) will serve as a reference benchmark. The fund's cash allocation is subject to each client's discretion.
