

InnovestX Private Fund

Private fund model ID Alpha ("ID Alpha")

Data as of 31 October 2025

Fund objective

ID Alpha Fund seeks medium to long-term capital appreciation. The fund manager(s) actively manage the fund by investing primarily in mutual fund units, listed equities, and others marketable securities with exposure in **Indonesia**, which the team believes will generate superior sustainable return over a certain benchmark. Although the Fund is not constructed relative to any benchmark, the IDX Composite (IDX) will serve as a reference benchmark. The fund's cash allocation is subject to each client's discretion.
